PROFESSIONAL SUMMARY

Flutter Developer with **2+ years of professional experience** building, maintaining, and delivering production-ready mobile applications for Android and iOS. Experienced in **Flutter, Dart, BLoC/Cubit, Clean Architecture, REST APIs, WebSockets, real-time communication, CI/CD, and local data persistence**. Hands-on experience integrating and troubleshooting complex third-party SDKs for video calling, VoIP, and real-time collaboration, including Zego Cloud, Agora, Jitsi, and Stream. Proven experience contributing to published applications, production releases, performance optimization, and scalable mobile solutions.

TECHNICAL SKILLS

- Mobile Development: Flutter, Responsive UI, Performance Optimization
- Architecture & Design: Clean Architecture, Monorepo Architecture, SOLID Principles
- State Management: BLoC/Cubit, Freezed, Provider, GetX
- Real-Time Systems: Zego Cloud, Agora, Stream, Jitsi, VoIP, Video Calling, WebSockets
- Backend & APIs: RESTful APIs, JSON Serialization, Error Handling, API Integration
- Databases: SQLite (SQFLite), Hive, Shared Preferences, SQL
- Testing: Unit Testing, Widget Testing, Integration Testing
- DevOps & CI/CD: GitHub Actions, Fastlane, Firebase App Distribution, Shorebird, App Flavors
- Tools & Platforms: Git, Firebase, Postman, Android Studio, VS Code, Google Play Console, App Store Connect, TestFlight

PROFESSIONAL EXPERIENCE

Junior Flutter Developer | Focal Point 2025

- **Real-Time Communication:** Engineered robust communication suites for flagship applications, customizing audio/video calling and interactive real-time tools (zego cloud , jitsi, agora, get stream) for high-concurrency environments.
- **Streamlined Release Engineering:** Engineered a robust CI/CD ecosystem using **GitHub Actions**, **Fastlane**, and **Shorebird** to automate deployment pipelines, reducing manual overhead and enabling instant over-the-air (OTA) production hotfixes that bypass traditional App Store approval cycles.

Junior Flutter Developer | Lepgo 2023-2024

- Directed the development and feature expansion of the **Lepgo** marketplace mobile application on the Google Play Store.
- Collaborated with UI/UX teams to implement responsive, high-fidelity designs ensuring platform-specific consistency across Android and iOS devices.

Freelance Flutter Developer 2024

- Developed a high-complexity medical application featuring **Machine Learning** integration for specialized diagnostic tools.
- Managed the full software development life cycle (SDLC), including complex local data persistence and real-time API synchronization.

Flutter Developer Intern | Gridea 2023

- Developed feature-rich mobile applications using advanced state management patterns including **GetX** and **Provider**.
- Participated in technical code reviews and optimized application performance for low-end hardware.

KEY PROJECTS

- **Jeras (جراس) | App Store, Google Play & Web:** Developed a high-fidelity communication engine featuring customized video calling and an integrated interactive whiteboard for real-time collaboration.
- **Make My Nikah | App Store & Google Play:** Engineered a synchronized canvas engine for in-call data exchange, focusing on low-latency state synchronization and high-concurrency stability.
- **Dream (رؤية) | App Store & Google Play:** Architected a secure, high-fidelity VoIP platform for private consultations, incorporating real-time workspaces and advanced notification frameworks.
- **Sales Suite:(Demo1 ,Demo2)** Developed dual-app ecosystem for sales force automation and administrative oversight.
- **Lepgo app Demo & Google Play:** Developed and maintained the company's flagship mobile application, delivering new features, performance improvements, and production releases through Google Play.
- **Cli Tech | AI-Powered Clinic Management Solution : (Demo)** Engineered a secure management ecosystem for healthcare practitioners to remotely oversee clinic workflows, Utilizing integrated AI models to assist in data categorization and operational decision-making.

SOFT SKILLS

- **Analytical Problem Solving:** Proven ability to decompose complex system requirements into scalable, maintainable software solutions and clean architecture designs.
- **Continuous Learning & Adaptability:** Fast learner with strong adaptability across technologies, bridging mobile development (Flutter) with emerging domains such as AI and Machine Learning.
- **Technical Communication:** Skilled in translating complex technical concepts into clear, business-friendly language for stakeholders and cross-functional teams.
- **Agile Collaboration & Networking Knowledge:** Experienced in Agile environments delivering high-quality modules under deadlines; certified in Cisco CCNA and CCNP ENCOR with solid understanding of networking fundamentals.

EDUCATION

Bachelor of Science in Computer Science & Information Systems *Faculty of Computers and Information (FCIS), Mansoura University (2024)*

LANGUAGES

- **Arabic:** Native
- **English:** Professional Working Proficiency
